Create a flexible yet collaborative workplace where people want to be.

Make flexible work work for your business. Yeastar Workplace Desk Booking System makes it effortless to manage any office seating arrangement with self-service bookings, automation, analytics, and more, all in one people-centric platform.

01 Let Flexible Work Works

Give your employees more choices on when and where to work. Offer bookable desk options with map cues and showcase real-time office occupancy & user reservations for better workday coordination.

02 Effortless Desk Scheduling

Ditch laborious spreadsheets. Set up seating strategies once and forget all the stress. The automation works itself and your people can help themselves with easy, on-the-fly desk booking from anywhere. No more logistical mistakes.

03 Happier Employees

Increase satisfaction with wider access to a variety of spaces that better match different activities, promoting fresh minds, productivity, and cross-functional collaboration.

04 Actionable Insights

Make better, data-driven planning decisions with comprehensive data. Use analytics to identify usage trends and continuously adapt, making every of your real estate dollar count.

Key Features
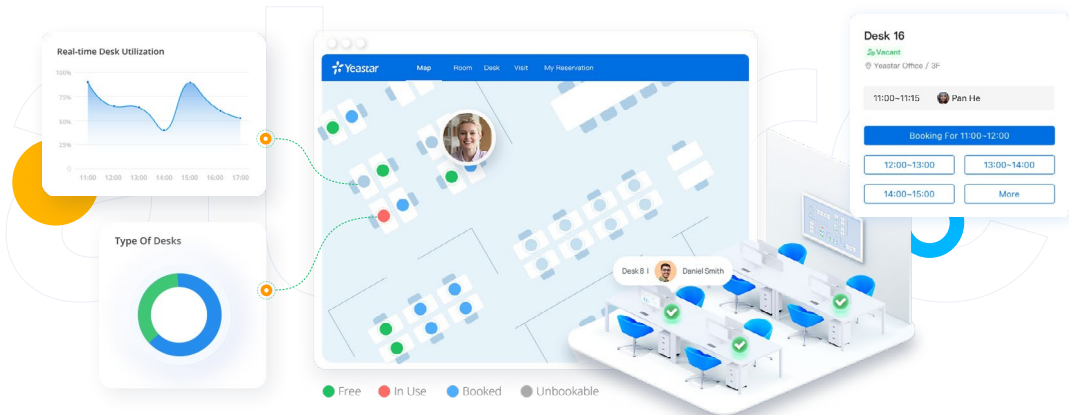

Efficient Desk Sharing

An easy-to-use desk booking software to help you efficiently allocate desk resources, prioritize workplace flexibility, and embrace the hybrid work trend.

Easy Desk Booking

Make desk resources accessible with a variety of booking options. Book via a real-time booking grid, on the go using mobile, from the office map, or via the e-ink desk screen.

Desk Types & Team Space

Set up flexible desks, permanently-assigned seats, and dedicated team spaces that're exclusively opened to certain departments and groups. Changed can be updated at any time.

Utilization, Trends & Insights

Understand your desk utilization and booking trends with detailed analytics & exportable usage data. Make data-driven decisions and spot opportunities to improve.

Interactive Office Map

By uploading your floor plan and assigning desks to the corresponding locations, you can easily manage your desk resources using an interactive office map.

Favourite Desk & Colleague

Book a desk in your favourite spot and start your work straight away. Or you can locate colleagues that you need to collaborate with and book a seat next to them.

Rules & Permission

Set rules for how bookings are made on the day or in advance. Use desk permissions to control who has what desks around the office, when, and how.

Desk Occupancy Sensor

Detect real-time desk occupancy, auto-release abandoned reservation, and get the most out of your desk resources via the desk occupancy sensor.

E-ink Desk Screen NEW

Display the real time status of each desk with a vivid tri-color e-ink screen. Powered by battery, this cordless desk screen is perfect for different workspaces through flexible mounting methods.
