

Fanvil PN8 2-Wire PoE Switch

Description

Fanvil PN8 is a 2-wire PoE switch featuring a unique design that facilitates the reuse of existing wires. It requires no cumbersome installation or wiring, simply plug it in and it's ready to use. This not only saves installation time but also significantly reduces overall wiring costs. This innovative feature makes PN8 an ideal choice for quick and efficient deployment in existing infrastructure, providing users with a more convenient and cost-effective experience.

Main Features

Plug-and-Play. Support network and power supply for 2-wire devices, with a transmission distance of up to 300 meters

Reuse existing wires (PSTN & RVV cables) to save wiring costs

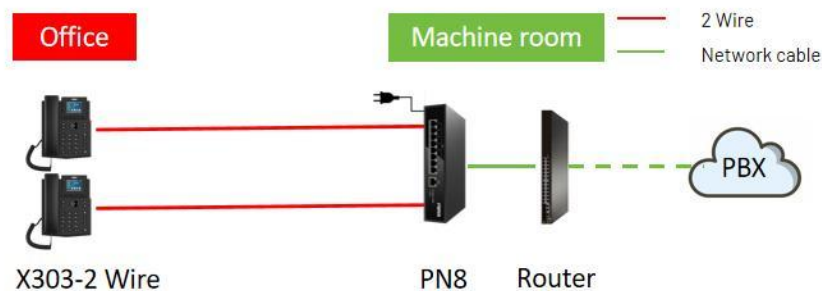

Cascade via Ethernet cables for a more stable transmission

Built-in power supply, supports 100~240V wide voltage input

Built-in mode switch

Fanvil Technology Co., LTD

Specifications

Scenario	Office, Community, Hotel, Renovation of an old building
Body	Galvanized steel
Color	Gunmetal
Network Interface	RJ45
2-Wire Interface	8
Reset	1
Device Power Switch	1
Status Indicator Lights	Power indicator light Network indicator light
Power	100-240V 54V 1.5A
Transmission Distance	300M (Supply network and power) CAT 5e, 24AWG,RVV 2*0.5
Working Temperature	-20°C~ +50°C
Storage Temperature	-20°C~ +70°C
Installation	Wall-mounted/Flush-mounted
Weight	11.33KG
Qty/CTN	10 PCS
Product Size (LWH)	195*130*40mm
Box Size (LWH)	310×66×156mm
